

24th International Conference on Sustainable Development 2026

October 21, 2026

Melbourne Business School
University of Melbourne
200 Leicester Street,
Carlton, Victoria,
Australia.

Program

Jointly organized by

International Centre for Interdisciplinary Research in Law, Laurentian University,
Canada.

Centre for Social Justice and Policy, Laurentian University, Canada and
Ontario International Development Agency
Canada.

Conference Co-Chair

Dr. Henri Pallard, LL.B., Ph.D.
Canada.
Emeritus Professor Law and Justice. Director, International Centre for Interdisciplinary Research in Law Laurentian University, Canada.

Dr. Henri Pallard is the Director of the International Centre for Interdisciplinary Research in Law and Professor emeritus in the Department of Law and Justice, Laurentian University, Sudbury (Ontario), Canada. He is broadly interested in the relationship between culture and human rights as it manifests itself in both western and non western cultures.

From 1994 to 2005, he was the Director of Persons, Culture and Rights (Personne, culture et droits), an international North/South research team which was funded by the International Francophone University (Agence universitaire de la Francophonie). During this period, he worked closely with researchers and academics from Morocco, Tunisia and Egypt distilling the cultural issues underlying the interpretation and implementation of human rights, the rule of law and democracy in North Africa.

From 2010 to 2016, he was the Associate Director, Poverty, Homelessness and Migration, at Laurentian University, which received a \$1 million grant from the Social Sciences and Humanities Research Council of Canada (SSHRC). Working in partnership with First Nations and northern communities, this five-year project examined the underlying causes of poverty, poor housing, homelessness, and out-migration in northern Ontario. For its outstanding work under its Director of SSHRC, it received the SSRHC Impact Partnership Award. Dr. Pallard is the executive editor of the OIDA International Journal of Sustainable Development.

Conference co-chair

Dr. Robert Taylor, Ph.D.
USA.
Professor of Environmental and Earth Studies
Department of Earth & Environmental Studies,
Montclair State University,
Montclair, New Jersey,
USA

Dr. Taylor is a Professor of Organizational and Urban Sustainability in the Department of Earth & Environmental Studies and Coordinator of the M.S. in Sustainability Science - Sustainability Leadership. A member of the Doctoral Faculty mentoring PhD students in environmental management.

Areas of Expertise:

Working with communities and companies to design sustainability projects to enhance development, encourage new business formation and business plans in green technology, increase employment and reduce poverty, develop plans for climate change adaptation for cities, and develop strategies for food security and mobility that reduce the carbon footprint of cities.

Current Projects in Sustainable Development:

Consultation for U.S. Department of Labor's Occupational Network for Career Development for Sustainability Specialists.

Recently awarded a Grant of \$195,000 from the United States Department of Defense for the project "Actionable Decision-Making for Flooding Events utilizing a small UAV Platform with LiDAR and Hyperspectral Instruments." This Grant is designed to establish student training programs and community projects using Aerial Drones for Environmental Research and Analysis.

Conference Co-chair

Dr. Neville Hewage, Ph.D.

Canada.

Former Adjunct Professor,
Research Fellow at the
International Centre for
Interdisciplinary in Law
Laurentian University, Canada.
Program Director, Ontario
International Development
Agency, Canada.

Dr. Neville Hewage earned his B.Sc. (General Science) from the University of Colombo, Sri Lanka; his M.Sc. (Industrial Environmental Management) from the University of Abertay Dundee, United Kingdom; his M.Sc. (Biology) from Laurentian University, Canada; his MIPIS (Infrastructure Protection and International Security) from the Norman Paterson School of International Affairs at Carleton University, Canada; and his Ph.D. (Human Sciences) from Laurentian University, Canada.

Dr. Hewage is a former Adjunct Professor in the Department of Law and Justice at Laurentian University, Canada. He is a Research Fellow at the International Centre for Interdisciplinary Research in Law at the same university. He also serves as Program Director of the Ontario International Development Agency, which delivers sustainable development programs and research in human development, international security, and governance. In addition, Dr. Hewage is a Senior Policy Analyst at the Ontario Centre for Policy Research, Canada.

Dr. Hewage is a member of the Law Society of Ontario and is licensed to provide legal services in Ontario, Canada

Observer - Conference Compliance and Regulations

Dr. Emily Tan, Ph.D.

Retired Professor
Kwantlen Polytechnic University
Canada

Dr. Tan did her masters degree in education at University of Leeds, U.K., and earned her Ph.D. in educational technology at Science University of Malaysia. She held a graduate diploma in education from Universiti Malaya, and obtained a provincial diploma in instructorship from Vancouver Community College, Canada. Emily specialised in education technology and teacher education, spending the most part of her academic career on training pre-service and in-service teachers.

Emily was a certified master facilitator for Intel's Teach to the Future programs, and conducted workshops and training at multinational factories and universities in Malaysia. She has presented papers internationally, published journal articles, and written university texts on study skills and learning strategies. Over the past nine years, she served as coordinator at the Learning Centre, Kwantlen Polytechnic University, training tutors on teaching methods and students on study skills and learning strategies

Observer – Conference Compliance and Regulations

Dr. Steven Cheah, Ph.D.
Canada.
Retired Economics Professor,
Kwantlen Polytechnic University,
Canada

Dr. Steven Cheah holds a Malaysian M Econ, a British Ph.D., an American MBA, a Canadian teaching diploma, and is an Australian Certified Management Accountant. His research interests are wide-ranging, including financial regulation and innovation, financial reporting, corporate governance, industrial technology transfer, open and distance education. Steven has published a number of academic books and book chapters, over 25 journal articles, and sat on journal editorial boards. He worked closely with industry, and has undertaken consultancy projects for United Nations and other international agencies, multinational corporations, central and commercial banks.

Steven was professor of economics at several public and private universities in Malaysia and Canada, and was a visiting professor at an American state university. During his long and distinguished academic career, he supervised a number of masters and doctoral candidates, and was appointed external Ph.D. examiner for Malaysian, Australian, and Indian universities (including Indian Institute of Technology). He has served in various leadership and management capacities, such as economics chair, director of continuing education, dean of business school, and dean of graduate school at various universities. He recently retired as economics professor at a Canadian public university.

24th International Conference on Sustainable Development 2026

October 21, 2026

Melbourne Business School
University of Melbourne
200 Leicester Street,
Carlton, Victoria,
Australia.

Registration Begins at 8:00 am

Opening Session

Time	Mawby Theater Moderator: Dr. Stephen Cheah, PhD.
9:30 am 9:40 am	Welcome speech Dr. Neville Hewage, Ph.D. Conference Co-chair Program Director Ontario International Development Agency, CANADA.
9:40 am 9:50 am	Greetings Dr. Henri Pallard, PhD. Conference Co-chair Emeritus Professor Law and Justice, Laurentian University, Canada. Former Director of International Centre for Interdisciplinary Research in Law, Laurentian University, CANADA.
9:50 am 10:00 am	Greetings Dr. Robert Taylor, Ph.D. Conference Co-chair Professor of Environmental and Earth Studies Department of Earth & Environmental Studies, Montclair State University, Montclair, New Jersey, USA
10:00 am 10:10 am	Greetings Dr. Mohshin Habib, Ph.D. Conference Co-chair Former Senior Lecturer, Department of Leadership and Management and Director, Post Graduate Program in International Business, Faculty of Business and Enterprise Swinburne University of Technology Victoria 3122, AUSTRALIA

Sessions

Bethune-Cookman University

Daytona Beach, Florida

USA.

[Rick Smardon, Ph.D.](#)

Distinguished Service Professor Emeritus

Department of Environmental Studies

State University of New York College of Environmental Science and Forestry

Syracuse, New York

USA

This special session will introduce participants to the Sustainable Human and Environmental Systems (SHES) approach to sustainability education and practice, which is the work of the SHES Roundtable. Since 2009, the SHES Roundtable has been a collaborative forum for academics and practitioners from throughout North America and beyond to pursue their commitment to providing college and university students with the knowledge and skills needed to meet the existential sustainability challenges that plague the modern world.. Its work has been shaped by a solid grounding in first principles, a commitment to seeking consensus from all participants at all steps of the process, and the use of lessons learned from iterative experimentation in the classroom to inform the approach's fine structure as it has evolved over time. The result is the SHES approach to sustainability education and practice, which is a living set of recommendations concerning the pedagogy and administration of interdisciplinary and higher-order sustainability-focused degree programs in higher education. The SHES approach offers a holistic alternative to current approaches to sustainability education and practice and embraces the education not only of students per se but also of practitioners, stakeholders, and citizens as a prerequisite for success in building a world of sustainable societies. It is also both a conception of sustainability education and a step-by-step cognitive strategy for use by both students in the classroom and practitioners in the field to diagnose and to prescribe sustainable

responses to situations that are inconsistent with a sustainable society. This special session on the SHES approach will be presented by the SHES Roundtable Co-Chairs.

The Roundtable's edited book—[Education for Sustainable Human and Environmental Systems: From Theory to Practice](#) (Routledge, 2019)—summarized the Roundtable's first decade of work. A subsequent paper—"The Sustainable Human and Environmental Systems Approach to Sustainability Education and Practice: Foundational Principles, Pedagogical Strategies, and Administrative Considerations" (2022), which Dr. Barresi presented on behalf of all the authors at the OIDA ICSD 2022 in Bangkok, updated and expanded upon the key elements of the SHES approach. The special session will be based on five more recent papers—which bear the common title "The Sustainable Human and Environmental Systems (SHES) Approach to Sustainability Education and Practice" (2026) but with the subtitles (1) [Foundational Thematic Principles](#); (2) [The Administrative Challenge](#); (3) [The Pedagogical Challenge](#); (4) [Program Evaluation, Transformation, and Recognition](#) and (5) [From the Classroom to the Workplace](#)—which update and expand upon the Roundtable's earlier work and which Dr. Reiter and Dr. Smardon presented on behalf of all the authors at the OIDA ISCD 2025 in Sri Lanka.

First Sub-Session: Foundational Thematic Principles (Presenters: Dr. Michael A. Reiter (online) and Dr. Paul A. Barresi (onsite))

This sub-session will set the stage for the others by introducing participants to the SHES vision, mission, and strategic goal and, in that context, to the seven foundational thematic principles on which the SHES approach to sustainability education and practice rests.

Second Sub-Session: The Administrative Challenge (Presenter: Dr. Michael A. Reiter (online))

The adoption of a novel approach to education at any college or university is likely to pose equally novel administrative challenges. Notwithstanding these challenges, the SHES approach is designed to be universally applicable, regardless of institutional setting or subject matter context, whether by itself or as a complement to educational approaches that colleges and universities are using now. With careful planning, patience, and some creativity, any college or university could become a SHES-friendly institution. This sub-session will show participants how.

Third Sub-Session: The Pedagogical Challenge (Presenter: Dr. Paul A. Barresi (Onsite))

The SHES approach to sustainability education and practice is suitable for use not only with students who are enrolled in academic or pre-professional courses and programs in colleges and universities large and small but also by practitioners in the field. It is also inherently well suited for use across a full spectrum of courses and programs—not just in stand-alone "sustainability" courses and programs but also in others as a complement to content defined by reference to discipline-dependent criteria. Yet the SHES approach is not only a conception of sustainability education but also a cognitive strategy. Given this dual aspect, the SHES approach regards certain competencies and pedagogical strategies

as essential. This sub-session will introduce participants to these essential elements of the SHES approach.

Fourth Sub-Session: Program Evaluation, Transformation, and Recognition

(Presenters: Dr. Michael A. Reiter (Online) and Dr. Paul A. Barresi (Onsite))

The discrepancies between sustainability-focused degree programs as they are and the SHES ideal highlights the need for tools that proponents of the SHES approach could use in evaluating existing programs; charting strategic pathways for transforming existing programs along SHES lines or building new SHES programs from scratch; and recognizing progress in either regard as it occurs. This sub-session will introduce participants to the assessment rubrics developed by the SHES Roundtable for use in doing so. In the workshop part of this sub-session, the presenters will invite participants to use one of these rubrics to assess the extent to which their own programs already incorporate SHES-friendly program administrative and design attributes and thus already lend themselves to implementation of the SHES approach.

Fifth Sub-Session: From the Classroom to the Workplace (Presenter; Dr. Rick Smardon (Online))

One way of looking at the pedagogical and administrative implications of the SHES approach is as features of the supply side of a marketplace for SHES professionals. On the demand side of this marketplace are prospective employers of college and university graduates and the professional associations on which those employers rely to validate the competence of prospective hires and to guide their workplace activities once they have been hired. Evaluating the current state and future prospects of the demand side of the marketplace for SHES professionals requires answering certain questions, which are the focus of this sub-session.
